PROJECTS

Family Promise inc , of Spokane: Service Tracker, *Full Stack Developer,* GitHub
Summary: This is an application that aim to assist multiple case workers, by procuring analytic data of those who are seeking public assistance in the city of Spokane. My role ensured that application visitors can easily interact with the page.

- Primary role, reformat UI display of case results using Ant Design, Figma, and CSS.
- Modified state per component with redux state management tool.
- Participated in writing clean, readable code
- Participated in regular meetings with team members and stakeholders to maintain lines of communication, and ensure project parameters are understood.
- Support team members on an ad hoc basis

Async Movie App (Most Recent Prospect) Upwork FreeLancer, *Full Stack Developer,* *GitHub*
- Developed a full stack preliminary model for Upwork prospect by implementing JavaScript class base syntax, algorithms and data structures.
- Migrated client side API to server side by using React and Node.js.
- Honed database tables and dictionaries by establishing an SQL infrastructure and confirmed via Docker.

EXPERIENCE

Lambda School, *Peer Mentor*
- Scholastic Mentorship for two Lambda students, provide programming advice, code reviews, and optimal support.
- Engaged in stand-up meetings with Lambdian peers to review, study, and discuss lectures and assignments.

AT&T, Clifton, NJ, *Help Desk 2*   Jan 2017 - Mar 2020
- Provide remote or onsite IT help desk services primarily for small business prospects, and for nonprofits.
- Partnered with clients to ensure accurate provisions.
- Technical troubleshooting and solve complex network problems in real time.

Passaic County Vision News, *School Cinematographer*   Feb 2018 - Mar 2020
- Collaborated with editors and journalists to broadcast events .
- Draft, edit, and publish patent videos and newsworthy photographs with adobe premiere, adobe after effects, and photoshop.
